2. In 1953 on her first tour with the [REDACTED], [REDACTED] had a personal automobile shipped to [REDACTED] at Government expense. When [REDACTED] was preparing to return to the United States for TDY and home leave in April 1955 she sold this automobile on the local market. If she had not sold the automobile, she would have had to store it in [REDACTED] for a period of approximately six months (duration of her home leave and TDY) at non-Government facilities and then ship it to the [REDACTED] at Government expense. 25X1A9a 25X1A6a

In view of the fact that [REDACTED] has accepted an additional tour with the [REDACTED] and, through no choice of her own, this tour is at a different station than her first tour, it is requested that exception be made to Field Regulation 30-3 and that [REDACTED] be allowed to ship a second car at Government expense to her new duty station with the [REDACTED].
